From

The Municipal Commissioner Mysore

No 2787 Dated 30 3 53

Requests the explanation as called for

19) Collection of M 22-52 (Serial 1) Contributions Collected dated 10 6 52 and 18 2 53 of the Commissioner's Office Referred in the present Communication is put up and are flagged M and N. It is on these references that an allotment of Rs 50 000/ was made to the Mysore City Municipality by a Re-appropriation and the Commissioner was finally informed in this Office Letter dated 21 3 53 that no further grants were possible With this the matter closed and the Letters dated by the Commissioner has no bearing on the drawing of the grant which is the point on which the explanation was called for

20) No further steps that are to be taken in connection with the Re appropriation there was no specific direction that detailed estimates have to be sent for the realisation of the amount, in all the previous years schemes

Allocation of the grant of Rs 50 000/ to the Nasik City Municipality for 1952 53

have been sent for asking the grant for the sanction of Govt. and for a senior officer of the State of A D C to plead ignorance of procedure and expect the Finance Dept to advise to the Govt Secretariat the Re-appropriation for further action to be taken by them Accountant General for making the grant may not be quite acceptable the audit Section is also attached to this office whose he could have consulted for advise on the matter if he has any kind of doubt.

21) The Collector has however been sanctioned leave preparatory to Retirement and it is therefore for orders if it is necessary to pursue the matter further

Copy 16/4/53, 22) The Officer has retired but 22/4/53 the Hd Cl lost Rs 50,000/- The Financial Sect may kindly be requested to make available a Sum of Rs 50,000/- by Re-appropriation if necessary

It is suggested that this amount may also be charged off to the loan Scheme already sanctioned by Government

35) It may be submitted in this connection that the loan account referred to appears to be the Overdraft Loan account with the Bank & the sum of this loan has not yet been drawn by the Municipality It was suggested in this office letter dated 19 5 53 that the availability of the lapsed grant of Rs 50,000/- sanctioned for the year 52 53 ~~remained~~ made available by a re-appropriation may be considered in consultation with the Finance Department but that it is necessary to decide the particular Scheme for which the money is to utilised. The Municipal Commissioner requests that the said lapsed grant may now be made available for the ~~remaining~~ two months in quarter in addition Rs 25000/- grant Provided in the State Budget of the current years

36) The Municipal Commissioner reports that he has already sent copies of the two estimates to the Chief engineer for Scrutiny and transmission of the same to Government these have to be awaited In the meantime the possibility of making available the lapsed grant of Rs 50000/- may be taken up in consul-

FINANCIAL & REVENUE SECRETARIAT
5026
1953

No Fl(B)10590-720

Mysore Government Secretariat,
Bangalore, dated 10th November 1953

OFFICIAL MEMORANDUM

SUBJECT Demands for Supplementary Grants

It is proposed to place before the next Session of the Legislature, demands for supplementary grants for meeting additional expenditure The Secretaries to Government are requested to forward to the Finance Department (Budget) ON OR BEFORE THE 17TH NOVEMBER 1953 the details of supplementary grants in the enclosed form

The following instructions should be borne in mind in compiling the statements -

(1) The explanatory note for each item of supplementary grants under the detailed head should be exhaustive and clearly state why the need for additional expenditure could not be foreseen at the time the figures were presented for the Budget

(2) If the expenditure in respect of the supplementary grant applied for is being incurred, a copy of Government Order authorising the incurring of expenditure and sanctioning necessary advance from the Contingency Fund may be attached

(3) In cases where the supplementary grants have not yet been sanctioned no demand can be included unless there is a directive from Government to - incur expenditure pending sanction to additional grants

(4) The proposals for supplementary grants should be formulated with due regard to the directives of Government for securing economy in expenditure and there should be no room for comment in future to the non-utilisation of the amount which might not be fully utilised

(5) For charged expenditure, a statement showing additional appropriation required in each grant should also be sent

As stated above only cases in which sanction has already been accorded or which are positively to be sanctioned because of directive to incur - charges in anticipation of funds should be forwarded and no consideration - can be shown to other cases and hence there is no need for the administrative Secretaries to get into correspondence with the Heads of Departments in this behalf In view of the heavy deficit budget, it will be difficult for - Government to support the demands and except in cases of emergency, no proposal for additional grants will be entertained

In view of the short time available, the matter has to be treated as "EMERGENT' and statements received after 17th November 1953 will not be accepted

Heads of Departments are requested to forward the details of demands for additional grants in respect of the transferred territory of Bellary for the latter half of the current year called for in D O No Fl(B)7885-985/Bud 36-53-2 dated the 5th October 1953, without any further delay

The demands for the Supplementary Grants will be moved in the Legislature by the concerned Minister and the Secretaries to Government are requested to arrange for keeping the connected files ready for reference of the Ministers and to furnish all the required information when these demands are to be taken up for consideration, in the Legislature

Subject Opening the detailed head "Mysore City Municipality" under "50 Civil Works - Grants-in-aid"

I illy refer to this office letter No TAD 3/C/W 131/52-53 dated 2-12-52 requesting to instruct the detailed head under the minor head "Grants-in-aid"

In this connection, I am to state that a bill authorised for payment in favour of the Commissioner, Mysore City Municipality for Rs 43,500/- by this office on 29-3-52, was actually paid by transfer at the treasury on 17-4-52 though it was pre-dated by the Commissioner on 31-3-52 A treasury irregularity has been awarded against the District Treasury Officer, Mysore, as he should not have paid the amount out of the current year's grant However, the payment has been provisionally debited to the detailed head "Mysore City Improvement Fund" as the detailed head "Mysore City Municipality" has been deleted in the current year's Budget

This wrong debit will have to be regularised either by the sanction of an additional grant or by suitable reappropriation The new detailed head "Mysore City Municipality" may also have to be opened for correct representation of these facts

---

Through

The President,
City Municipal Council,
Mysore

Sir,

Subject - Utilising the Government Grant of Rs 50,000/- sanctioned to the Mysore City Municipality for the year 1952-53

In continuation of my letter No C1-108/52-53 dated the 20th March 1953, forwarding a bill for Rs 50,000/- for transmission to the Accountant-General, Mysore, Bangalore, to authorise the Distr. Treasury, Mysore, for payment of the money to the Municipality, I write to state that the Municipal Council has proposed to undertake a scheme of tarring the roads in the City, involving very heavy expenditure with a view to minimise the expenditure incurred on their annual maintenance Government in their orders No L 8852-55/CH 76-51-2 dated 17th November 1951 and No L 12104-7/CM 58-52-2 dated 28th October 1952 have sanctioned the obtaining of a financial accommodation from the Bank of Mysore, Ltd , on an overdraft basis to be spent on this scheme of tarring the roads and other remunerative enterprises The utilisation of the grant of Rs 50,000/- allotted for the current year would to this extent reduce the commitment of the Municipality with the Bank

As the tarring of roads in the City is an important scheme of improvement, I request the favour of very early orders to utilise the grant of Rs 50,000/- for the year 1952-53 for thek tarring of roads in Mysore City

Details of the roads to be tarred with estimates therefor

will be submitted to Government in due course

As the official year is fast drawing to a close I solicite very early sanction of Government to the proposal

Yours faithfully,

(F I Abdul Rahim)
Municipal Commissioner

Forwarded with compliments,

(A Krishnamurthy Rao)

Sub Utilisation of Govt grant[in] of Rs 50 000/ sanctioned to Mysore city Mly during 1952-53

L2322 CM 79-53-4

To 18-5-53

The Ml Commr Mysore

(thro' DSE)

Sir

With reference to correspondence ending with your ~~let~~ D O no 2787 dated 30-3-53 on the above subject I am directed to forward herewith the Bill returned from the A G unassented with objection on ~~the~~ ~~further correspondence~~

~~It has been requested on your letter dated 30-3-1953~~

The grant of Rs 50000/- for last year has thus been allowed to lapse and this would no doubt seriously affect the progress of improvement works to be taken up by the Mly It is therefore proposed to consider the feasibility of making available the lapsed grant of last year by a re-appropriation Before the Fin Dept could be moved for this it is necessary to decide the

particular Scheme for which the
money is to be utilised I am
therefore to enquire whether taking of
Roads which is the exclusive responsibility
of the Rly and for which arrangements
for an overdraft loan of Rs 5 lakhs
with the Bank of Mysore have been made
can be an appropriate item for assistance
from Govt As this was a last minute
proposition to enable drawing the grant of
last year at the last end of the year
with reference to a ready and prepared estimate and
now that there is ample time to think
of some urgent and suitable scheme to
which this grant, the entire matter
may be placed before the Rly Bd and for a Recommendation
its considered view furnished early to Govt
The matter may be treated as urgent

(Through the President)

Ref Reminder Vaq ears

Sir

Subject -Utilisation of Government grant of Rs 50 000/- sanctioned to Mysore City Municipality during 1952-53

With reference to correspondence resting with your letter No L 2322-CW 79-53-6 dated 19th February 1953 regarding the subject mentioned above, I write to state as under

In Mysore City Dhanvanthri road and Old Santhepet road are roads where the traffic is very heavy but at the moment they are in a very bad condition While a portion of Dhanvanthri road has not even been metalled after its formation, the Old Santhepet was tarred years ago and its present condition is so bad that effecting repairs would be as costly as re-doing the road The question of effecting improvement to these roads in a satisfactory manner has been under the active consideration of the Council for sometime past A resolution was also passed by the Municipal Council at their meeting held on 30-4-1953 that the Old Santhepet road may be cement concreted As regards Dhanvanthri road though the necessity for bringing the road up to standard has been felt the Municipality did not pass any resolution as throughout they had been contending that this work has properly got to be taken up by the City Improvement Trust Board But in your letter No L 3453/ITB 9-52-88 dated

3-6-1953 ou have communicated the decision of the Government that the work of tarring this road might be included in the scheme of tarring the roads and that the Trust Board cannot be asked to take up this work In view of this direction of the Government the Council have reconsidered their original stand and they feel that this work also may be tackled by the Municipal Agency as required by Government

Accordingly an estimate was called for from the Municipal Engineer for cement concreting 18 ft width of Dhanvanthri road and tarring (premix) either sides to a width of 6" An estimate for Rs 51,400/- for doing this work has been received As the finances of the Municipality cannot permit an undertaking of this type viz , cement concreting the two roads viz Old Santhepet and Dhanvanthri road as stated above a note was placed before the Works Committee and the Council in this behalf and a copy of the same is enclosed This has been approved both by the Works Committee and the Council

According to the note and the supporting estimates etc received from the Municipal Engineer (1) the cost of cement concreting 2 furlongs and 80 ft of Old Santhepet road would be Rs 44,500/- and (2) cement concreting and tarring the Dhanvanthri road would be Rs 51,400/- The aggregate will be Rs 95 950/- In your letter under acknowledgement you have been pleased to remark that it had been proposed to consider the feasibility of making available the lapsed grant of last year viz , Rs 50 000/- by reappropriation Provision has been made in the State Budget for 1953-54 for a grant of Rs 25,000 to the Municipality It is requested that both these grants viz , Rs 50,000/- and Rs 25,000/- may be made available during

NOTE

22

-2-

the course of this year to enable the Municipality to undertake the works mentioned above The balance of Rs 20 950/- over and above the grant covered will be met out of the normal provision made in the budget of the Municipality or alternatively this will be charged off to the loan scheme already sanctioned by Government A copy of the resolution of the Council passed in this behalf is enclosed It is also the two estimates for the works referred to

In these circumstances I request that early orders of Government may kindly be obtained sanctioning the estimates and Government grant of Rs 75,000/- Copies of the estimates have also been sent to the Chief Engineer to scrutiny and forwarding of the same to Government direct

Yours faithfully

City Municipality,
Mysore 14-7-1953

Proceedings of the Council by circulation

383 Works Committee Res No 384/7-7-1953 recommending approval to the two estimates - one for Rs 44 550/- for cement concreting Sunthepet road and the other for Rs 51 400/- for cement concreting 18' of Dhanvanthri road, 6 ft on either sides being premixed amounting to Rs 95,950/- in the aggregate be approved and recommended to Government for sanction with funds to the extent of Rs 75 000/- as detailed in the Municipal Commissioner's Note as Government grant, the balance being met out of Municipal funds as suggested in the same note

---

The subject having been circulated among the members of the Council 26 members have approved of the proposal 4 members were absent or not available at the time the file was taken to them

It is therefore resolved that the recommendation of the Works Committee to sanction the two estimates - one for Rs 44 550/- for cement concreting the Old Sunthepet road and the other for Rs 51,400/- for cement concreting 18 ft of Dhanvanthri road, 6 ft on either sides being premixed - amounting to Rs 95 950/- in the aggregate, be approved and sent to Government for sanction and the Government be requested to sanction a grant of Rs 75,000 for the purpose as detailed in the Municipal Commissioner's Note the balance being met out of Municipal Funds as suggested in the note

City Municipality
Mysore 16th July 1953

note regarding utilisation of Government grant of Rs 50 000/- sanctioned to Mysore City Municipality during the year 1952-53 and Rs 95 000/- provided in the State Budget for 1953-54

Two roads in Mysore City which are quite important but which are in a very bad state of disrepair are Old Santhepet and Dhanvantri roads. The traffic on both these roads is comparatively speaking very heavy. Old Santhepet road was tarred years ago and portion of Dhanvantri road has not even been metalled. The Municipal Council have already passed a resolution on 20-4-1953 that the Old Santhepet may be cement concreted instead of being tarred. The estimate is for Rs 44 500/-

The Municipal Engineer has also been requested to put up an estimate for cement concreting 18 ft width of Dhanvanthri road and to tar (premix) 6 ft on either side. He has submitted an estimate for Rs 51 400/- which is made up as under -

Metalling	Rs10 000/-
Cement Concreting 18 ft (Cent e) width	Rs34 900/-
Turning the pile	Rs 6 500/-
Total	Rs51 400/-

Therefore for both the schemes the amount required would be Rs 95 900/- The Secretary to Government L S G and Planning Department in his letter dated 9th May 1953 has indicated that the amount of grant of Rs 50 000/- for the last year which has been allowed to lapse may be made available this year if a suitable scheme to utilise this grant is placed before the Government In the State Budget for 1953-54

provision has been made under 57-Miscellaneous for giving a grant of Rs 25 000/- to Ayanavaram Municipality during the current year. Therefore if we are able to work up a proper scheme the Municipality is likely to get a total grant of Rs 75 000/- during the year. Therefore I would suggest that the Government may be requested to grant Rs 75,000/- out of the total sum of Rs 79 450/- required for merely cement concreting these roads. It may also be stated that the balance of Rs 4 450/- will be met out of the Municipal Budget under Dl-Original Works where provision has been made for Rs 15,000 for cement concreting roads. So far as the tarring is concerned the amount is to be met from the loan scheme.

As the matter is very urgent I would suggest that this question may be disposed of by circulation among the members of the Works Committee in the first instance and then sent to the members of the Council for approval.

I tried to put up it up before the meeting of the Council on 30-6-1953 but as the estimates could not be prepared in time I am suggesting the above course.

S. V. Lakshmana Rau,
Municipal Commissioner

Copy

For Municipal Commissioner

NOTE

Report accompanying the estimate for cement concreting the Old Santhepet Road

The ~~length of~~ old santhepet road is 2 furlongs & 80' (1400') in length and 36' to 40' in width The existing tarred road surface is in a very bad condition due to pits & ruts, undulations and also humps The road is having very heavy traffic of all types There is lot of public agitation to improve this road The C M C has also passed resolution at its meeting held on 30-4-53 to cement concrete the entire width of 36' It is therefore proposed to cement concrete the entire width of 36' at a cost of ₹ 44,550/- as per detailed estimate enclosed herein, as the tar road will not stand the miscellaneous types of traffic the road is carrying Necessary provisions are made in the estimate The rates provided are as per the rates prevailing in the Municipality for collection of materials and as per rates paid by Mysore division and Nanjangud divisions for laying cement concrete etc , It is proposed to cement concrete the road departmentally

The amount of the expenditure is proposed to be met out of the total grant of ₹ 75,000/- made by the Government for improvement works in the Municipality The estimate may kindly be got sanctioned early

Municipal Engineer

1953

No Fl(B)10590-720

Mysore Government Secretariat,
Bangalore, dated 10th November 1953

OFFICIAL MEMORANDUM

SUBJECT Demands for Supplementary Grants

It is proposed to place before the next Session of the Legislature, demands for supplementary grants for meeting additional expenditure The Secretaries to Government are requested to forward to the Finance Department (Budget) ON OR BEFORE THE 17TH NOVEMBER 1953 the details of supplementary grants in the enclosed form

The following instructions should be borne in mind in compiling the statements -

(1) The explanatory note for each item of supplementary grants under the detailed head should be exhaustive and clearly state why the need for additional expenditure could not be foreseen at the time the figures were presented for the Budget

(2) If the expenditure in respect of the supplementary grant applied for is being incurred, a copy of Government Order authorising the incurring of expenditure and sanctioning necessary advance from the Contingency Fund may be attached

(3) In cases where the supplementary grants have not yet been sanctioned no demand can be included unless there is a directive from Government to - incur expenditure pending sanction to additional grants

(4) The proposals for supplementary grants should be formulated with due regard to the directives of Government for securing economy in expenditure and there should be no room for comment in future to the non-ion of the amount which might not be fully utilised

(5) For charged expenditure, a statement showing additional appropriation required in each grant should also be sent

As stated above only cases in which sanction has already been accorded or which are positively to be sanctioned because of directive to incur - charges in anticipation of funds should be forwarded and no consideration - can be shown to other cases and hence there is no need for the administrative Secretaries to get into correspondence with the Heads of Departments in this behalf In view of the heavy deficit budget, it will be difficult for - Government to support the demands and except in cases of emergency, no proposal for additional grants will be entertained

In view of the short time available, the matter has to be treated as "EMERGENT' and statements received after 17th November 1953 will not be accepted

Heads of Departments are requested to forward the details of demands for additional grants in respect of the transferred territory of Bellary for the latter half of the current year called for in D O No Fl(B)7885-985/Bud 36-53-2 dated the 5th October 1953, without any further delay

The demands for the Supplementary Grants will be moved in the Legislature by the concerned Minister and the Secretaries to Government are requested to arrange for keeping the connected files ready for reference of the Ministers and to furnish all the required information when these demands are to be taken up for consideration, in the Legislature

Subject Opening the detailed head "Mysore City Municipality" under "50 Civil Works - Grants-in-aid"

I illy refer to this office letter No TAD 3/C/W 131/52-53 dated 2-12-52 requesting to instruct the detailed head under the minor head "Grants-in-aid"

In this connection, I am to state that a bill authorised for payment in favour of the Commissioner, Mysore City Municipality for Rs 43,500/- by this office on 29-3-52, was actually paid by transfer at the treasury on 17-4-52 though it was pre-dated by the Commissioner on 31-3-52 A treasury irregularity has been awarded against the District Treasury Officer, Mysore, as he should not have paid the amount out of the current year's grant However, the payment has been provisionally debited to the detailed head "Mysore City Improvement Fund" as the detailed head "Mysore City Municipality" has been deleted in the current year's Budget

This wrong debit will have to be regularised either by the sanction of an additional grant or by suitable reappropriation The new detailed head "Mysore City Municipality" may also have to be opened for correct representation of these facts

---

Bangalore

Through

The President,
City Municipal Council,
Mysore

Sir,

Subject - Utilising the Government Grant of Rs 50,000/- sanctioned to the Mysore City Municipality for the year 1952-53

In continuation of my letter No C1-108/52-53 dated the 20th March 1953, forwarding a bill for Rs 50,000/- for transmission to the Accountant-General, Mysore, Bangalore, to authorise the Distr. Treasury, Mysore, for payment of the money to the Municipality, I write to state that the Municipal Council has proposed to undertake a scheme of tarring the roads in the City, involving very heavy expenditure with a view to minimise the expenditure incurred on their annual maintenance Government in their orders No L 8852-55/CH 76-51-2 dated 17th November 1951 and No L 12104-7/CM 58-52-2 dated 28th October 1952 have sanctioned the obtaining of a financial accommodation from the Bank of Mysore, Ltd , on an overdraft basis to be spent on this scheme of tarring the roads and other remunerative enterprises The utilisation of the grant of Rs 50,000/- allotted for the current year would to this extent reduce the commitment of the Municipality with the Bank

As the tarring of roads in the City is an important scheme of improvement, I request the favour of very early orders to utilise the grant of Rs 50,000/- for the year 1952-53 for thek tarring of roads in Mysore City

Details of the roads to be tarred with estimates therefor

will be submitted to Government in due course

As the official year is fast drawing to a close I solicite very early sanction of Government to the proposal

Yours faithfully,

(F I Abdul Rahim)
Municipal Commissioner

Forwarded with compliments,

(A Krishnamurthy Rao)

(thro' DSE)

Sir

With reference to correspondence ending with your ~~let~~ D O no 2787 dated 30-3-53 on the above subject I am directed to forward herewith the Bill returned from the A G unassented with objection on ~~the~~ ~~further correspondence~~

~~It has been requested on your letter dated 30-3-1953~~

The grant of Rs 50000/- for last year has thus been allowed to lapse and this would no doubt seriously affect the progress of improvement works to be taken up by the Mly It is therefore proposed to consider the feasibility of making available the lapsed grant of last year by a re-appropriation Before the Fin Dept could be moved for this it is necessary to decide the

particular Scheme for which the
money is to be utilised I am
therefore to enquire whether taking of
Roads which is the exclusive responsibility
of the Rly and for which arrangements
for an overdraft loan of Rs 5 lakhs
with the Bank of Mysore have been made
can be an appropriate item for assistance
from Govt As this was a last minute
proposition to enable drawing the grant of
last year at the last end of the year
with reference to a ready and prepared estimate and
now that there is ample time to think
of some urgent and suitable scheme to
which this grant, the entire matter
may be placed before the Rly Bd and for a Recommendation
its considered view furnished early to Govt
The matter may be treated as urgent

(Through the President)

Ref Reminder Vaq ears

Sir

Subject -Utilisation of Government grant of Rs 50 000/- sanctioned to Mysore City Municipality during 1952-53

With reference to correspondence resting with your letter No L 2322-CW 79-53-6 dated 19th February 1953 regarding the subject mentioned above, I write to state as under

In Mysore City Dhanvanthri road and Old Santhepet road are roads where the traffic is very heavy but at the moment they are in a very bad condition While a portion of Dhanvanthri road has not even been metalled after its formation, the Old Santhepet was tarred years ago and its present condition is so bad that effecting repairs would be as costly as re-doing the road The question of effecting improvement to these roads in a satisfactory manner has been under the active consideration of the Council for sometime past A resolution was also passed by the Municipal Council at their meeting held on 30-4-1953 that the Old Santhepet road may be cement concreted As regards Dhanvanthri road though the necessity for bringing the road up to standard has been felt the Municipality did not pass any resolution as throughout they had been contending that this work has properly got to be taken up by the City Improvement Trust Board But in your letter No L 3453/ITB 9-52-88 dated

3-6-1953 ou have communicated the decision of the Government that the work of tarring this road might be included in the scheme of tarring the roads and that the Trust Board cannot be asked to take up this work In view of this direction of the Government the Council have reconsidered their original stand and they feel that this work also may be tackled by the Municipal Agency as required by Government

Accordingly an estimate was called for from the Municipal Engineer for cement concreting 18 ft width of Dhanvanthri road and tarring (premix) either sides to a width of 6" An estimate for Rs 51,400/- for doing this work has been received As the finances of the Municipality cannot permit an undertaking of this type viz , cement concreting the two roads viz Old Santhepet and Dhanvanthri road as stated above a note was placed before the Works Committee and the Council in this behalf and a copy of the same is enclosed This has been approved both by the Works Committee and the Council

According to the note and the supporting estimates etc received from the Municipal Engineer (1) the cost of cement concreting 2 furlongs and 80 ft of Old Santhepet road would be Rs 44,500/- and (2) cement concreting and tarring the Dhanvanthri road would be Rs 51,400/- The aggregate will be Rs 95 950/- In your letter under acknowledgement you have been pleased to remark that it had been proposed to consider the feasibility of making available the lapsed grant of last year viz , Rs 50 000/- by reappropriation Provision has been made in the State Budget for 1953-54 for a grant of Rs 25,000 to the Municipality It is requested that both these grants viz , Rs 50,000/- and Rs 25,000/- may be made available during

NOTE

22

-2-

the course of this year to enable the Municipality to undertake the works mentioned above The balance of Rs 20 950/- over and above the grant covered will be met out of the normal provision made in the budget of the Municipality or alternatively this will be charged off to the loan scheme already sanctioned by Government A copy of the resolution of the Council passed in this behalf is enclosed It is also the two estimates for the works referred to

In these circumstances I request that early orders of Government may kindly be obtained sanctioning the estimates and Government grant of Rs 75,000/- Copies of the estimates have also been sent to the Chief Engineer to scrutiny and forwarding of the same to Government direct

Yours faithfully

Mysore 14-7-1953

Proceedings of the Council by circulation

383 Works Committee Res No 384/7-7-1953 recommending approval to the two estimates - one for Rs 44 550/- for cement concreting Santhepet road and the other for Rs 51 400/- for cement concreting 18' of Dhanvantri road, 6 ft on either sides being premixed amounting to Rs 95,950/- in the aggregate be approved and recommended to Government for sanction with funds to the extent of Rs 75 000/- as detailed in the Municipal Commissioner's Note as Government grant, the balance being met out of Municipal funds as suggested in the same note

---

The subject having been circulated among the members of the Council 26 members have approved of the proposal 4 members were absent or not available at the time the file was taken to them

It is therefore resolved that the recommendation of the Works Committee to sanction the two estimates - one for Rs 44 550/- for cement concreting the Old Santhepet road and the other for Rs 51,400/- for cement concreting 18 ft of Dhanvanthri road, 6 ft on either sides being premixed - amounting to Rs 95 950/- in the aggregate, be approved and sent to Government for sanction and the Government be requested to sanction a grant of Rs 75,000 for the purpose as detailed in the Municipal Commissioner's Note the balance being met out of Municipal Funds as suggested in the note

City Municipality
Mysore 16th July 1953

A note regarding utilisation of Government grant of Rs 50 000/- sanctioned to Mysore City Municipality during the year 1952-53 and Rs 95 000/- provided in the State Budget for 1953-54

Two roads in Mysore City which are quite important but which are in a very bad state of disrepair are Old Santhepet and Dhanvantri roads. The traffic on both these roads is comparatively speaking very heavy. Old Santhepet road was tarred years ago and portion of Dhanvantri road has not even been metalled. The Municipal Council have already passed a resolution on 20-4-1953 that the Old Santhepet may be cement concreted instead of being tarred. The estimate is for Rs 44 500/-

The Municipal Engineer has also been requested to put up an estimate for cement concreting 18 ft width of Dhanvanthri road and to tar (premix) 6 ft on either side. He has submitted an estimate for Rs 51 400/- which is made up as under -

Metalling	Rs10 000/-
Cement Concreting 18 ft (Cent c) width	Rs34 900/-
Turning tile kile	Rs 6 500/-
Total	Rs51 400/-

Therefore for both the schemes the amount required would be Rs 95 900/- The Secretary to Government L S G and Planning Department in his letter dated 9th May 1953 has indicated that the amount of grant of Rs 50 000/- for the last year which has been allowed to lapse may be made available this year if a suitable scheme to utilise this grant is placed before the Government In the State Budget for 1953-54

p ovision h s been r ade unde 57-Miscellaneous fo ..ing a grant of Rs 25 000/- to Ayso e Cit Municipalit during the current ye r. Therefore if we are able to / up a proper scheme the Municipality is likely to get a total grant of Rs 75 000/- during t e ear. Therefore I would suggest that the Government may be requested to meet Rs 75,000/- out of the total sum of Rs 79 450/- required for merely cement concreting these roads. It may also be stated that the balance of Rs 4 450/- will be met out of the Municipal Budget under Dl-Original Works where provision has been made for Rs 15,000 for cement concreting roads. So far as the tarring is concerned the amount is to be met from the loan scheme.

As the matter is very urgent I would suggest that this question may be disposed of by circulation among the members of the Works Committee in the first instance and then sent to the members of the Council for approval.

I tried to put up it up before the meeting of the Council on 30-6-1953 but as the estimates could not be prepared in time I am suggesting the above course.

S. V. Lakshmana Rau,
Municipal Commissioner

For Municipal Commissioner

NOTE

Report accompanying the estimate for cement concreting the Old Santhepet Road

The ~~length of~~ old santhepet road is 2 furlongs & 80' (1400') in length and 36' to 40' in width The existing tarred road surface is in a very bad condition due to pits & ruts, undulations and also humps The road is having very heavy traffic of all types There is lot of public agitation to improve this road The C M C has also passed resolution at its meeting held on 30-4-53 to cement concrete the entire width of 36' It is therefore proposed to cement concrete the entire width of 36' at a cost of ₹ 44,550/- as per detailed estimate enclosed herein as the tar road will not stand the miscellaneous types of traffic the road is carrying Necessary provisions are made in the estimate The rates provided are as per the rates prevailing in the Municipality for collection of materials and as per rates paid by Mysore division and Nanjangud divisions for laying cement concrete etc , It is proposed to cement concrete the road departmentally

The amount of the expenditure is proposed to be met out of the total grant of ₹ 75,000/- made by the Government for improvement works in the Municipality The estimate may kindly be got sanctioned early

Report accompanying the estimate for - Cement concreting with tarring on either sdg Dhanvanthri Road

The length of Dhanvanthry road from Sayyajee Rao road up to Viceroy road is 4 furlongs and 50' The width is 30' to the entire length This is a new road formed about 3 years back Half the length of the road i e from Sayyajee Rao road up to Dewans road is metalled Even this bit of road has settled considerably forming unevenness in the surface This is a very important road having all types of traffic, being the link from V V Mohalla, City Railway station, and Bus tard to the City Added to this all the country carts and lorries which bring vegetables and fruits to Devaraja Market travel only on this road Besides lot of dust is created in the road due to constant traffic, The pedestrians feel impossible to move about and in the interest of inpatients of the K R Hospital which is adjacent to the road, making the road dust proof becomes very necessary It is therefore now proposed to cement concrete the entire 18' width with tarring to the sides to accomodate all types of traffic in the total width of 30' It is proposed to cement concrete the road departmentally

Necessary provisions are made in the estimate for metalling the road for pfoper subgrade, corcreting the centre 18' width and sides tarring, as per the detailed estimate enclosed herewith for ₹ 51,400/- The rates provided in the estimate are as per rates prevailing in the Municipality for collection of materials and as per rates paid in Mysore division and Nanjangud division for laying cement concrete roads.

This is in accordance with the G O No 3453/I T B 9/52-53 communicated to the chairman C I T B Mysore in o L B 454/18-6-53 stating that the work of tarring this road may be included in the scheme of tarring the roads in Mysore City

The estimate may kindly be got sanctioned early

Dear Sir,

I have sent separately the estimates in respect of cement concreting Santhepet road and Dhanvanthri road (with turning to a width of 6 ft on either side in the case of the latter) aggregating to Rs 95 950/- for obtaining sanction of Government I feel that the work of cement concreting of these two roads - the Dhanvanthri road in particular should be finished before the commencement of the Dasara

I shall be thankful if you can obtain order of Government sanctioning the estimates as also the grant very early to realise this objective

Yours sincerely

Sir,

Subject - Utilisation of Government grant of Rs 50,000/- sanctioned to Mysore City Municipality during 1952-53

With reference to letter No C 2 P 25/52-53 dated 15-7-1953 addressed to you by the Municipal Commissioner, Mysore, a copy of which together with copies of estimates which were forwarded to this office for scrutiny and forwardal to Government, I write to forward the estimates after scrutiny for favour of according sanction of Government

The estimates have been scrutinised with reference to the current scheduled rates of the Buildings Division, Mysore

The estimates for cement concreting

(i) the Santhepet road is scrutinised for Rs 44,550/-

and (ii) the Dhanvanthri road from Sayyaji Rao Road to Viceroy Road is scrutinised for Rs 55,300/-

Yours faithfully,

(H C K BHATTA)

NOTE

Report accompanying the estimate for cement concreting the Old Santhepet Road

The ~~length of~~ old santhepet road is 2 furlongs & 80' (1400') in length and 36' to 40' in width The existing tarred road surface is in a very bad condition due to pits & ruts, urdulations and also humps. The road is having very heavy traffic of all types. There is lot of public agitation to improve this road The C M C has also passed resolution at its meeting held on 30-4-53 to cement concrete the entire width of 36' It is therefore proposed to cement concrete the entire width of 36' at a cost of ₹ 44,550/- as per detailed estimate enclosed herein, as the tar road will not stand the miscellaneous types of traffic the road is carrying. Necessary provisions are made in the estimate. The rates provided are as per the rates prevailing in the Municipality for collection of materials and as per rates paid by Mysore division and Nanjangud divisions for laying cement concrete etc , It is proposed to cement concrete the road departmentally.

The amount of the expenditure is proposed to be met out of the total grant of ₹ 75,000/- made by the Government for improvement works in the Municipality The estimate may kindly be got sanctioned early.

D Ramaiah

Municipal Engineer.

Dear Venkatakrishna Rao

Subject - Cement concreting Sant Joseph and Dhanvantri roads

I write to invite your kind reference to this office letter No C2 IR 25/52-3 dated 10th Jul 1953 regarding the subject mentioned above I see from the copy of the letter received from the Chief Engineer that the estimates have been scrutinised and forwarded to you with his letter No 3748 dated 8-8-1953

When I was in Bangalore you observed that the Government may not be prepared to give a grant ex of Rs 75 000/- when the estimate itself was for about Rs 95 000/- and that the Government are likely to consider the matter favourably and meet half the cost if the Municipality come forward to meet the other half I agreed to this proposal tentatively and after my return, I approached the President also about the position He also feels that our views was reasonable and if the Government sanctioned a grant amounting to half the cost, the Municipality would be prepared to meet the balance The matter is being brought up before the Managing Committee and the Council also and they are not likely to hold any different opinion

In these circumstances I will be obliged if you could obtain a decision of Government sanctioning the estimate for Rs 99 850/- as scrutinised by the Chief Engineer and the grant of Rs 49 925/-

Yours sincerely
